Slide 2

In the following videos we want to present a few best practice examples for Open Educational Resources (OER)

Slide 3

MIT wants to publish as much course materials as possible online and make them widely available to everyone.

MIT OpenCourseWare (OCW) is a web-based publication of virtually all MIT course content. OCW is open and available to the world and is a permanent MIT activity.

Slide 4

Through OpenCourseWare, educators improve courses and curricula, making their schools more effective; students find additional resources to help them succeed; and independent learners enrich their lives and use the content to tackle some of our world's most difficult challenges, including sustainable development, climate change, and cancer eradication.

Slide 5

Check ocw.mit.edu for more information
