Slide 2

In the following videos we want to present a few best practice examples for Open Educational Resources (OER)

Slide 3

The Smithsonian Learning Lab is a major rethinking of how the digital resources from across the Smithsonian's 19 museums, 9 major research centers, the National Zoo, and more, can be used together, for learning. The Learning Lab is one of SCLDA's next generation of tools designed to make access to and the use of Smithsonian digital assets for learning easier and more effective. Through the Learning Lab and other projects, SCLDA is committed to innovatively advancing the use of the Smithsonian's digital assets in ways that shape the future of learning. Discover more than a million resources, create personal collections and educational experiences, and share your work.

Slide 4

Guided by the Smithsonian's mission of the increase and diffusion of knowledge, SCLDA was established to re-imagine and ultimately reinvent the way students, teachers, and lifelong learners interact with and use the Smithsonian's resources in the 21st century. Recognizing most will never visit Smithsonian museums, SCLDA set out to identify how it might best enrich education by making Smithsonian experts and collections accessible to everyone regardless of where they live. The website provides a learning lab that contains resources from 19 museums, 9 major research center and the US national Zoo.
